PLUMBING: Our workmen are not plumbers. They are not trained, equipped, licensed or authorized to do plumbing. If they remove or replace any pipes or fixtures at your request, it is done solely as a courtesy and the responsibility for any damage is yours.

Our workman may, under certain circumstances, find it necessary to remove loosen handles, spouts, drain pieces, or overflow covers. In those cases, we will be responsible

for those items unless the age or general decay of pipes or fixtures makes this impossible. Please inform our workman or the estimator if your plumbing is old or in questionable condition, so that we can take special precautions or leave it completely undisturbed.

CURE TIME: The fixture must cure for 24 Hours after the time our workman finishes. Do not use the fixture during this time and see to it that the refinished/repared areas remain free of water. Full cure time is 7 to 14 days.
